

Report on Leadership Training Internet Governance for persons with Disabilities in Pakistan.

I am honoured to attend the training about Internet Governance from 26th to 28th December 2023 at Ramada Islamabad.

It was really an excited moment for me to receive invitation by the Chief Executive of path finder solutions. In invitation when I have seen the key topics that will be covered in this training has also increase my interest to attend this training. The introductory session conducted by the cheif executive of the path finder solution .Mr.Dr Shabeer Awan when shared is views about the training. The crucks of his thoughtful discussion was nothing about us without us.

Mr Zakir Syed make a brief foundation of Internet Governance, brief about the coordination of different stakeholders govt, public and internet eco system approach its six dimensions.

Classification of Internet Governance issues, its four groups dimensions, infrastructural class of IG, use of Internet without spam, learnt many new terminologies which were totally new for me.
